

FEATHERLIKE

„FEATHERLIKE are the reincarnation of adult-pop“, someone once said. Maybe. With their third album „Kings & Queens“, the band, once again, combined irresistible melodies and mature, intelligent songwriting, drama and sensuality, grief and humour. This was and always will be FEATHERLIKE’s main goal.

Whether it’s light an ironic, cheerful, bouncy or just plain rocking, „Kings & Queens“ is a perfect example how timeless indie-pop-rock sounds, without jumping onto every existing bandwagon. Good songs nourish our emotions. They tell stories for human beings as such: gripping, witty, sometimes bizarre but always far off any clichés. Maybe it’s even your own story?

FEATHERLIKE are constantly gigging and played several german festivals with bands like Mando Diao, The Hives, Selig, Silbermond, 2raumwohnung, Killerpilze, Die Fantastischen Vier, Milow and many others.
