

goJA moon ROCKAH

goJA moon ROCKAH are the hottest Indie Band from high up in the north of Germany. Since their beginnings, the freshness of their impossible to define music genre is what makes these four heroes from Wismar an exceptionally interesting act.

Circling just outside the rules of standard Disco, Punk, and Club Music, this Baltic Sea group brews up their frosty electronic beats with flourishes of guitar licks, huge melodies, and a proper portion of lunacy into a very sexy broth for worldwide willing Party Junkies.

Since their first two releases, goJA moon ROCKAH have built a dedicated audience through numerous club shows of their own as well as opening on tour for acts as diverse and well known as Unheilig, DAF, The Cruxshadows, or Super700. Certainly, the goJA's know how to surprise and thrill an audience with their energy charged shows.

This autumn, third album "Libido Cowboys" will be released via Echozone/Intergroove. Colorful, bouncy, and in your face. The tunes keep on pulsing even when an occasional melancholy floats over like a light fog between the grooves. A true stroke of genius!

Herr JA's dark voice will abduct you and lift you off to places like a steamy shower, the depths of a tropical jungle, a hot motorcycle ride, and even the secret corners of a lonely backstage. All the while the dry electronic beats, blasts of odd guitar, and spacey pulsing sequences keep you on the ground, and literally throw you to the dancefloor.

goJA moon ROCKAH - on record a true sound sensation. Live - as crazy as your uncle on drugs!
